### ***What is on the MOVE?***

-a resource and dialogue opportunity that:

\*offers workshops in career management, introduces dance service organizations and provides networking opportunities both within the participants' peer group and with valued members of the dance community.

\*strives, through leadership and example, to empower emerging artists by stressing the need for engaging in pro-active initiatives, encouraging responsibility and risk-taking and by emphasizing the need to excite inquisitive minds.

\*emphasizes the collaborative nature of dance and underlines the importance of community responsibility.
